**INSTRUCTIONAL TECHNOLOGY USE FORM
KINDERGARTEN TO GRADE 12**

**Instructional Technology Use Form
For Students in Kindergarten to Grade 12**

We are pleased to provide students of River East Transcona School Division access to computer network and equipment. Unless otherwise indicated, access to the computer network and equipment will be granted to all students.

(1) **Safeguards**

Access to instructional technology services will enable students to engage opportunities to digitally create, collaborate and problem solve as well as explore thousands of libraries, databases and digital resources while communicating with users throughout the world.

It is the shared responsibility of the student, parent and school staff to ensure that access to instructional technology services provided by the school system is appropriate.

The River East Transcona School Division uses an Internet filtering system to minimize access to inappropriate websites. Some material accessible via instructional technology might contain items that are potentially offensive to some people, inaccurate, defamatory or illegal. While we do everything we can to prevent such access, it is not possible to *guarantee* that students will not accidentally or purposely find inappropriate material. We believe that the benefits to students from access to instructional technology, in the form of information resources and opportunities for digital creation, communication and collaboration, exceed any disadvantages. Ultimately, parents/ guardians of minors are responsible for setting and conveying the digital citizenship standards that their children should follow when using media and information sources. To that end, River East Transcona School Division supports and respects each family's decision not to approve access to computer information technology.

(2) **Division Instructional Technology**

Students are responsible for their behaviour on school instructional technology tools. Communications on the network can be public in nature. General school rules for behaviour and communications apply as does the divisional Code of Conduct.

Individual users of the instructional technology are responsible for their behaviour and communications using these digital tools. It is presumed that users will comply with divisional standards and will honour the articulated expectations and responsibilities. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly and in accordance with all applicable policies. Users acknowledge that they have no expectation of privacy in respect of their use of instructional technology information or anything stored on same.

As outlined in board policy, users will be responsible for their digital learning by:
