

TECHNICAL EDUCATION PROGRAM

EXPRESSION OF INTEREST

What is a Technical Education program?

Students will learn in an environment modelled after the workplace. They will develop and acquire skilled trade and technology related skills that will allow them to transition into: the workplace, apprenticeship opportunities, post-secondary education, and their daily lives. (Tech Ed Program Overview—Manitoba Education)

Students can start exploring skilled trades and technology in Grade 9 and 10 to work toward a focus on one of the 13 different programs offered in our school division. Students require a total of eight courses starting in Grade 10 to receive a Technology Education Diploma from the Government of Manitoba.

The courses students take in the Grade 11 and 12 years of the programs focus the skill sets and theoretical concepts needed to achieve the full Technology Education Diploma. Some of these programs are accredited with apprenticeship and could provide students with a head start on working towards Level 1 Certification achieving accreditation with Apprenticeship Manitoba.

Why Technical Education?

Skilled trade and technology careers are important to the well-being of our communities and are an excellent career path for many young people. Embarking on a career in the skilled trades is great for those individuals who like to think creatively, solve problems, and work actively within a hands-on environment.

Please indicate which program(s) you are expressing an interest in. Please rank preferences 1, 2, and 3.
