

Important Parent Portal Access Information – Update June 2017:

- The Tyler Student 360 mobile app does not provide for changing the academic year. As of July 1st the Parent Portal will be updated to the 2017 – 2018 academic year, at that time parents will not be able to see the 2016 – 2017 academic year using this app. Parents will be able to view the schedule for next year, but not their son's/daughter's Q4 report card for 2016 – 2017.
- However, when users access the portal from any Web browser, they will have full access to all components and settings. This includes changing the academic year. Mobile users should use their mobile Web browser to get access to their report card in the 2016 - 2017 academic year.
