

November 23, 2021

Dear Parents/Guardians,

Your Board of Trustees is pleased to bring you the latest edition of the Torch (attached).

The intent of this edition is to provide you with information that assists in understanding how education is funded and spent. We would like to hear from you on what you value in education. Your feedback will aid us in our budget deliberations.

The link to the Thoughtexchange is in The Torch and on the divisional website. We encourage you to take some time to let us know what you value in your child/rens education. As parents you are the best advocates for your children and we value your opinion.

The Board will also be hosting a virtual “Community Conversation” in an interactive town hall format on Tuesday, January 25, 2022. Please save this date and join us as we discuss what we value in education. More details will be available in the coming weeks.

Sincerely,

Jerry Sodomlak  
Chairman of the Board of Trustees
