

Cinder

By: Marissa Meyer

Is it possible that life can get more confusing? People on earth have been tiptoeing around a war with the Lunars for twelve years. Cinder, a cyborg girl, has only ever wanted freedom from her stepmother, Adri. Not only that but she wants to be accepted as a cyborg. Cinder's life has never been good enough and now she has a chance to fix it, to make it worthwhile. Tragically, series of troublesome events help her find out much more about her life before turned cyborg, and that a war with the Lunars is impending. Cinder is compelled to fight for what she has always wanted, but is forced to work on more pressing matters. Cinder finally has the chance to get somewhere, but is it worth the risk?

If you are charmed by futuristic romantic adventures, you'll worship Cinder.
