### On This Day in Hockey

Author: Eric Zweig

Book Reviewer: Cameron

On This Day in Hockey is an autobiography about Hockey. It gives facts about records, special events, and stats, on days throughout the months. For Example on January 18<sup>th</sup> 1958 the first ever black man played NHL Hockey. It has something for every day in a year. It is an awesome book because you can ask people what their birthday is and then tell them the event that happened on that day! It really keeps you wanting to read more.

I would recommend this book to anyone who loves hockey and to people who like to read autobiographies.
