

Name of Book: Rage Within

Author: Jain Roberts

Reviewer: Kieran

Genre: Action/Adventure

Rage Within is about four teens that try to survive a zombie apocalypse. It takes place in Vancouver. The main idea is to survive against the baggers, who are zombie-like people. If a bagger gets you, you'll turn into one. The main characters are Aries, Clementine, Mason and Michael. They are trying to survive and not be caught. If you enjoy mature reads this is the book for you! Also if you watch Walking Dead and like it this book is really similar to the show. Overall this is a really good book but I would prefer a book with some blood. This book is part of the series Dark Inside and the book Earthquake which is about the same four teens but in an earthquake. This book has a lot of death and destruction so be aware.

Recommendation: This book is more of a mature read as it is in the teen section. There is some violence and killing in this book. This is a more fast-paced and detailed action story.

Rating: I would rate this book 4/5 stars.
