At the beginning of the book Hazel Grace and Augustus Waters got to the same Cancer Care group. When they first meet Augustus immediately falls in love with Hazel Grace! They start hanging out day after day and one day they are talking about books. They realize they both aren't in to the same books so they decide to exchange books! When Augustus reads Hazel's book that Hazel really likes he ends up loving the book! They want to talk to the author about the book but they realize that the author lives in Amsterdam. They don't know if they can get to Amsterdam but they have one solution that might work...

**Recommendation:**

I recommend this book to people that like romantic, sad and funny novels because this book has all three of those genres in it. I would also recommend the book to girls and maybe boys but it would depend if you like romance.
